# FITNESS CLUB WEBSITE

- Fitness club management system is developed keeping in mind the regular day-to-day operations of a Fitness club.
- The Fitness club management system categorizes its visitors into different categories and presents them with the respective functionality as per their level of access.
- A new user can also enrol in the activities of the fitness club.
- The Website Provides the functionality to register, login, join the different categories and enrol it for free.
- We have used basically, HTML5 and CSS3 for designing, styling and giving a proper content to our website and have used basic JavaScript to make a functionality on Login page and also to home page for basic function like smooth scroll, Slider.

We have divided our 'Fitness Club Website' into following Modules:-

- ➔ Home
- ➔ About Us
- ➔ Services
- ➔ Features
- ➔ Reviews
- ➔ Price Plans
- ➔ Membership
- ➔ Contact Us

## Home Section:

A beautiful Home page is created using HTML and design using CSS

On top a Gradient Navigation Bar is created.

At top left corner Our website logo has been added 'FITNESS FREAKS'.

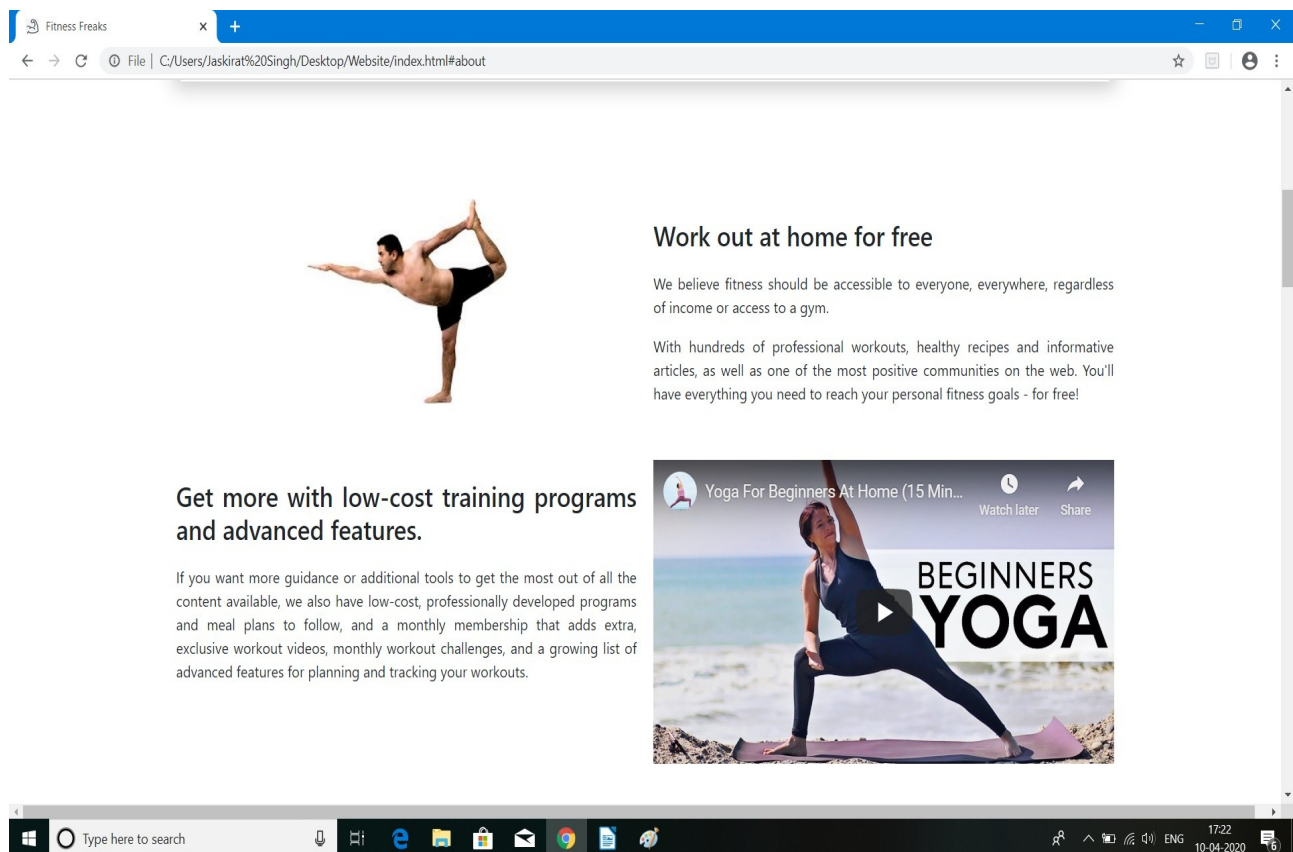

Different Modules has been shown in Navigation Bar.

Over Image Footer is also created and Welcome text is shown with 'Read More' button.

LOGO:-

# About Us Section

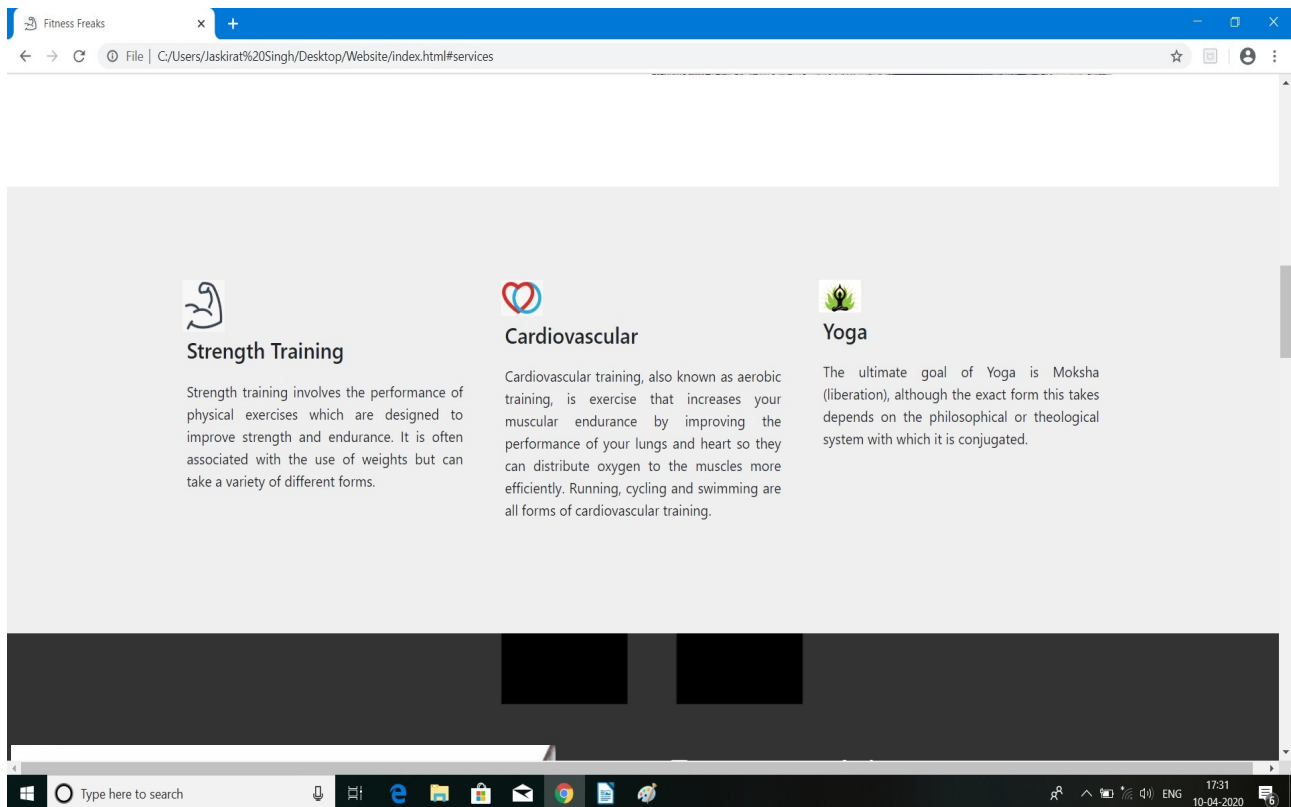

Different Divisions has been made, to show different categories  
Padding is also given to make text reading comfortable  
A YouTube video is also added using Video attributed tag

Scrolling Effect is given using JavaScript  
Clicking On 'ABOUT US' section, it directly scrolls to this section.

User will definitely get a great experience using Website  
Also Language is kept very Simple.

# Services

Services provided by website has shown here.

Three sections are created :-

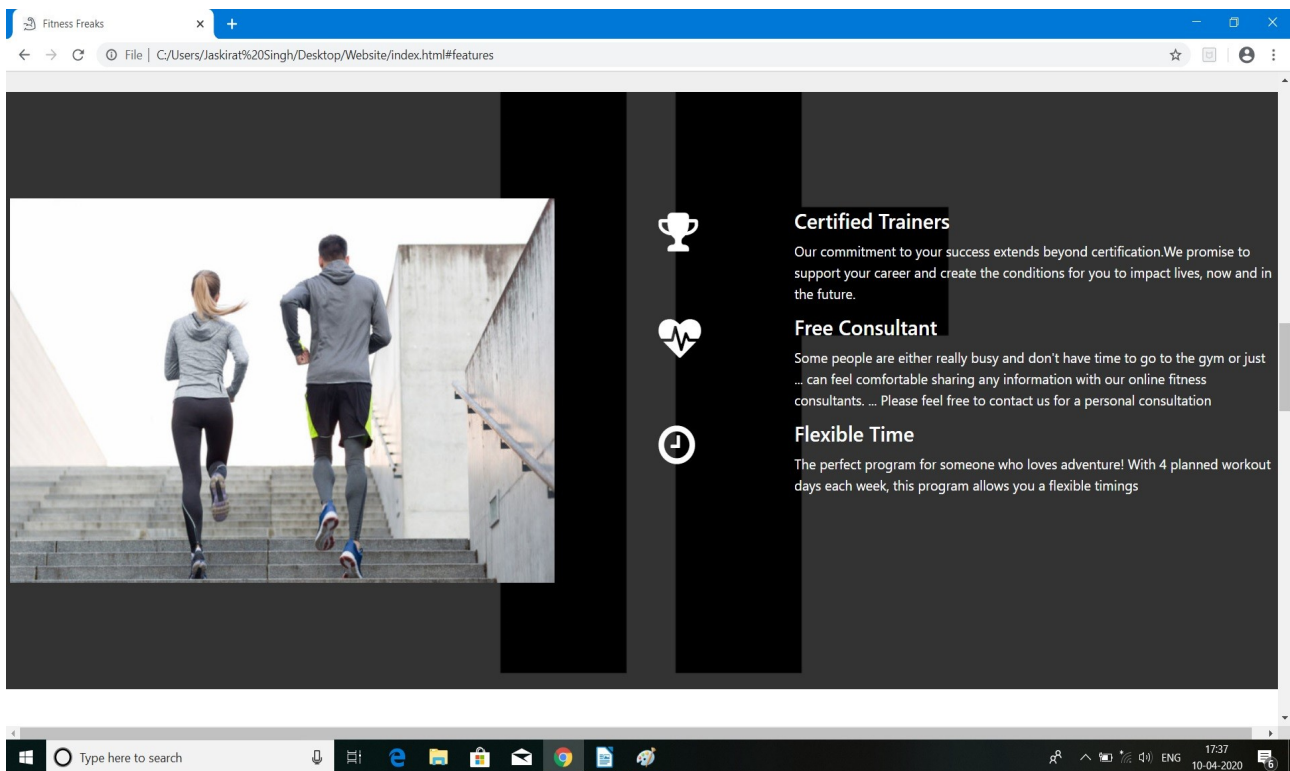

Strength training, Cardiovascular, and Yoga

Logos are correctly defining, what is that part about.

Logos are kept simple and small, to look Elegant.

Here also, Clicking 'SERVICES' section in navigation bar, will directly scroll to this part.

# Features

Features of this Website has shown here.

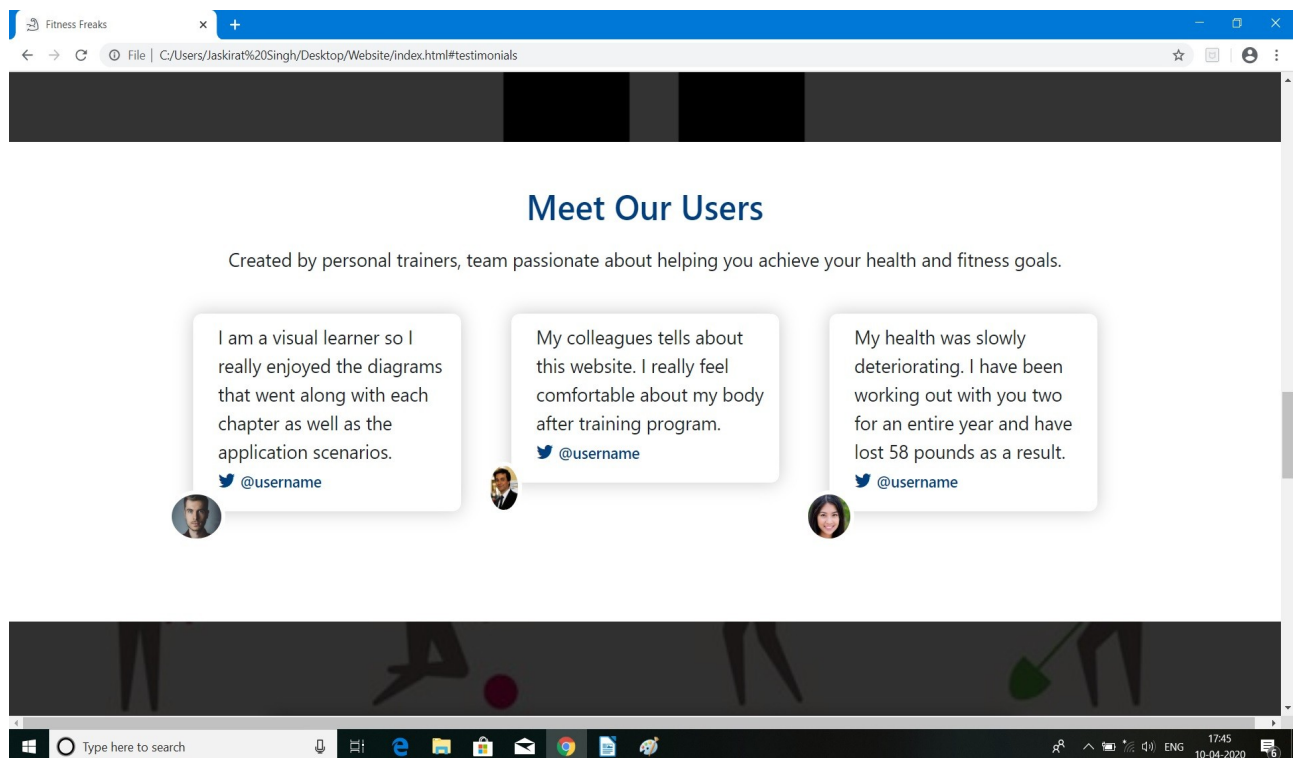

Here first background image linear gradient of website Logo is made.

Creating two divisions, At first, image is added and necessary padding and alignment is given using CSS

In second section, features are provided.

Three further section is created. Logos are added which are depicting the features very well.

# Reviews

In this section reviews given by people is shown in very interesting way.

Three reviews is shown, plus an image is also there, which is overlapping there corners, developed by using CSS , by padding and alignment and other attributes.

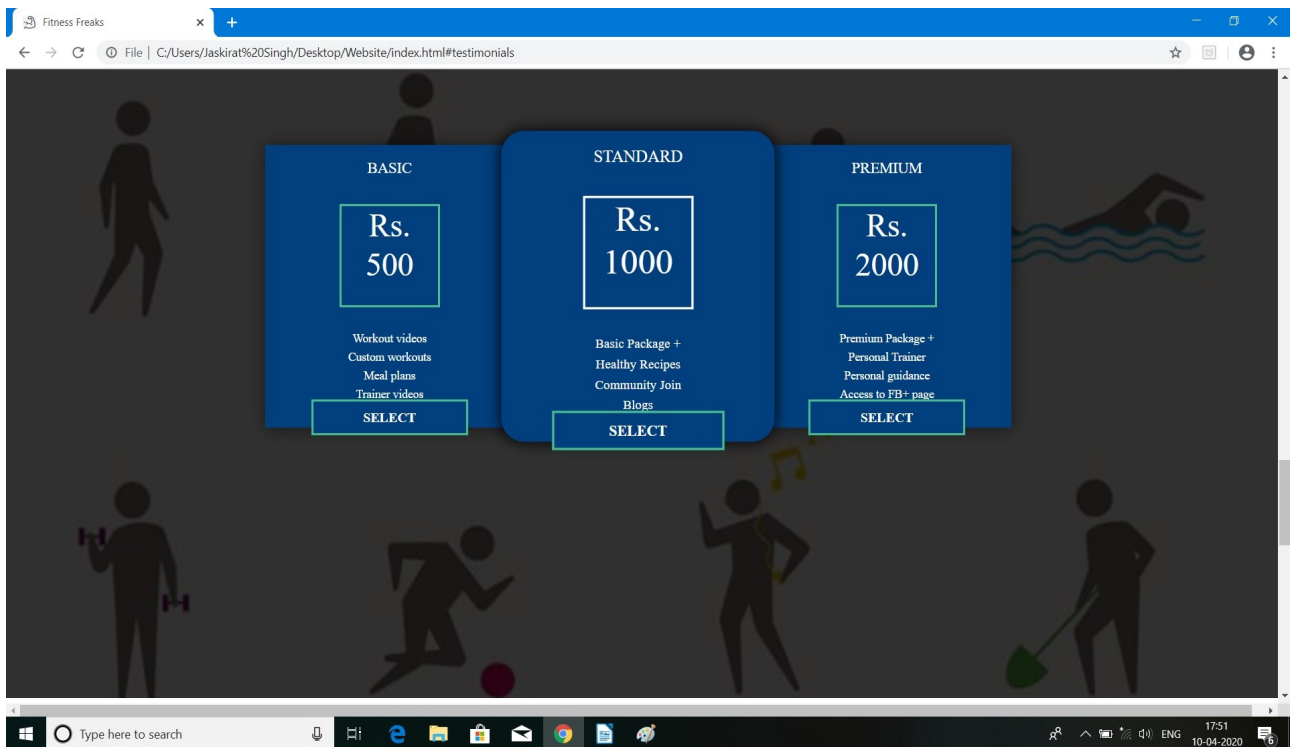

Colour scheme is kept very calm and attractive.

Here also, by clicking on 'REVIEWS' option on navigation bar, it directly scrolls to this section.

This scrolling effect is given by JavaScript and section Ids by connecting options and their section.

# Price Plans

In this section, Price plans is shown , offered by our website

Linear gradient background image is given, on which three sections are there to show a user different categories provided by the website to him.

Special animations are also added, when you place your cursor on any category, it automatically highlights, and text color also changes.

Like in this section, center division is highlighted.

# Membership

Get Membership!

The only thing we endorse is eating unprocessed, whole foods, and working out for a strong, healthy body. As a business, we believe good things happen when you put people before profit. Kindly fill the following Membership form:-

Full Name:

Email:

Mobile:

Gender: ☒ Male ☐ Female

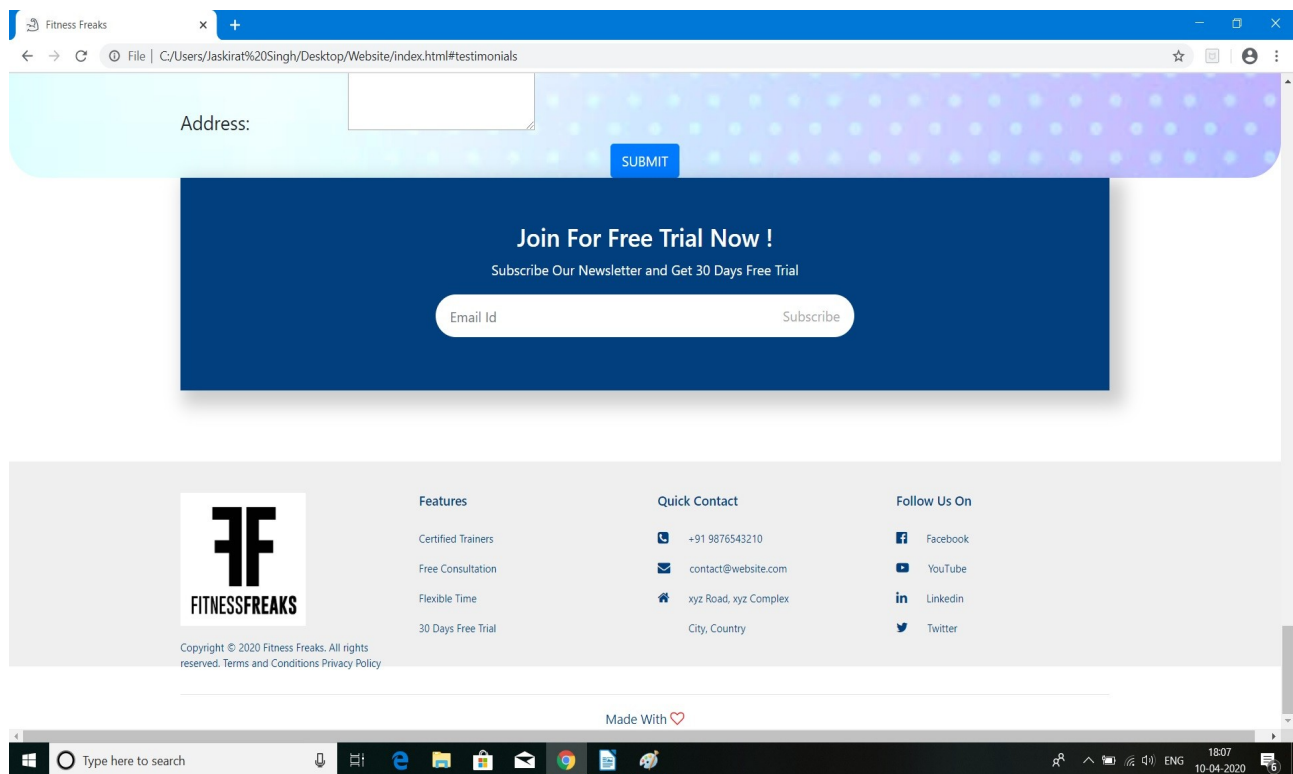

Weight:

Address:

In this section, membership form has created.  
A beautiful background pattern is added.

Different Label tags, Placeholder tags is used.  
CSS is used to align all the text to make it look good.  
Submit button is there, which will allow user first to  
fill all the details in the designated space.  
By clicking 'MEMBERSHIP' option on navigation  
bar, it directly scrolls to this section.

# Contact Us

In this section a Free Trial box is created, with beautifully round corners box and great color scheme.

A Footer is created at the end, with the website Logo and some copyrights.

Some further divisions is created -

Features, Quick Contact, Social Media Links  
Small logo icons are added against each contact and social media links.
